

FATIMAH TAIWO

Film director and Screenwriter

Summary

I am a passionate aspiring film director based in London and just concluded my year at Global Academy studying creative enterprising. I am excited to build my career in film directing by gaining hands on experience and expanding my creative skills. My dedication, drive and experience in writing screenplays and creating videos have strengthened my passion for visual storytelling.

My journey into filmmaking hasn't been traditional. I had to teach myself the craft. Through writing screenplays, creating art and short music videos and entering writing competitions, I've gained a deeper passion for filmmaking and aspire to create films that inspire people the way I was.
